14 Years Ago Today

From The Herald of This Date, 1904

THE steamship Dakota brings the advice from Nagasaki that the famine situation in northern Japan is getting growing graver. In December it was estimated that 2,000,000 persons out of a population of 2,500,000 were on the verge of starvation. Since then the situation is even more serious.

The fillings for the right of way have been made and the surveys are being pushed in New Mexico for the proposed electric railway line from Fort Hancock to El Paso.

Surgeons broke into M. Shaffer's store in Juarez last night, stealing about \$200 worth of watches and jewelry.

Mrs. Chaper Harvey, of 701 Magoffin avenue, fed a young tramp who came to her door about Christmas.

"SYRUP OF FIGS"

CHILD'S LAXATIVE

Look at tongue! Remove poisons from stomach, liver and bowels.

Accept "California" Syrup of Figs only—look for the name California on the package, then you are sure your child is having the best and most harmless laxative or physic for the little stomach, liver and bowels. Children love its delicious fruity taste. Full directions for child's dose on each bottle. Give it without fear. Mother! You must say "California!"—Advt.

BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets are a Harmless Substitute

Dr. Edwards' Olive Tablets, the substitute for calomel, are a mild but sure laxative, and their effect on the liver is almost instantaneous. These little olive-colored tablets are the result of Dr. Edwards' determination not to treat liver and bowel complaints with colored pills. The pleasant little tablets in the good that calomel does, but none on bad after-effects. They don't irritate the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Covered sometimes plays havoc with the gums. So in strong liquids. It is not just to take calomel. Let Dr. Edwards' Olive Tablets take its place.

Headaches, "dullness" and that way feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets—then you'll say "yes" and "thank you" to the "olive" and "back up" the action. Dr. Edwards' Olive Tablets take its place.

FOR BURNING ECZEMA

Apply Zemo, the Clean, Antiseptic Liquid—Easy to Use—Does Not Stain

Greasy salves and ointments should not be applied if good clear skin is wanted. From any druggist for 35c or \$1.00 for large use, get a bottle of Zemo. When applied as directed it effectively removes eczema, quickly stops itching, and heals skin troubles, also sores, burns, wounds and chafing. It penetrates, cleanses and soothes. Zemo is a clean, dependable and inexpensive antiseptic liquid. Try it, as we believe nothing you have ever used is as effective and satisfying.

ACTION

Five wells drilling and nearing completion before the stock is offered for sale and five more to be started on proven tracts almost immediately. We call this SOME action. This is exactly what

Producers Oil & Refining Company

IS DOING

The oil business in Texas has only started, but the day of the "Get Rich Quick Wallingford" promoter is over and there is none to mourn his going. The business is now being established on a firm foundation and we look for stockholders to get profits during the next few months that will startle the imagination.

Producers Oil & Refining Company is a solid organization with no promotion stock and we sincerely recommend the purchase of its shares at \$1.00 par.

HAVE YOU BOUGHT Homer 23 Oil Company?

The Company that has already made a record in these respects:

- (A) Independent development of properties.
- (B) Rapid subscription of stock.
- (C) Protection of shareholders' interest.

This company, managed by experienced oil men, who have large sums of money invested, has acquired acreage which is considered the cream of the North Louisiana field. Now drilling a well on 520 acres in Bull Bayou. This well, which is being drilled with the company's own rig, has the 10 inch casing set and is going down rapidly. Drilling on a 40 acre tract in section 23-20-8, Claiborne Parish, just south of the Homer Gusher Area, and on the same structure, using own rig and ready to set the 10 inch casing. Drilling on 20 acres in section 24-21-8, Homer Field, and expect to drill several other wells on this tract. Section 24 has 38 wells producing from a shallow sand (1100 to 1400 feet), whose initial production averaged 2000 barrels per well. The Standard, Texas, Gulf Refining and Gillingham and Foster are in this section. Gillingham and Foster have brought in a string of big producers just north of the Homer 23 tract, in this section.

The balance of the first public issue of 100,000 shares is now being offered at par, \$1.00, and as the developments now being carried on by this company will naturally affect the price of this issue in the very near future, we advise immediate application on attached form.
